Omni Global Technologies

Omni-TFG

TACTICAL FLOOR GAME EDITOR

SUMMARY

It is possible to simulate the tactical actions of joint operations in a variety of basic tactical types of joint operations using this system. A tactical visualization system such as this is used to support the teaching of basic tactical skills in a way that resembles a real-life battle situation, so that it can further enhance the understanding of the students of these basic skills.

Omni Global Technologies

STRATEGIC ARMY WARGAME SOFTWARE LICENSE

FEATURES / FUNCTION
