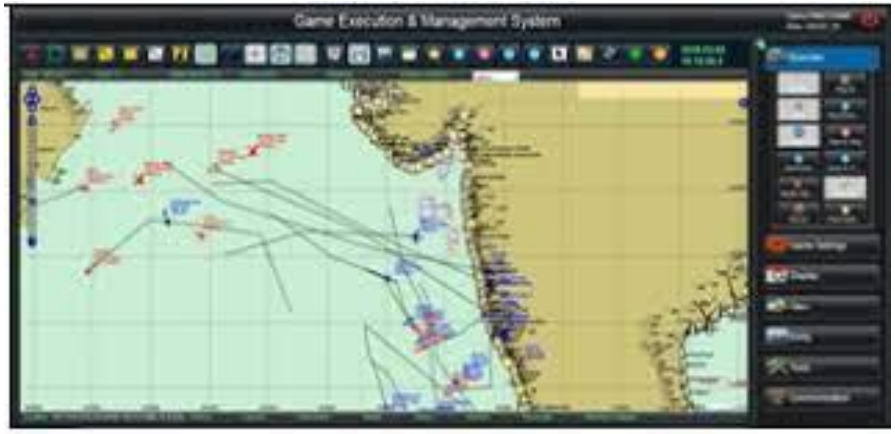
PLAN CREATOR MANAGEMENT INFORMATION

Omni-WarOps

Omni Global Technologies

SUMMARY

Using a web-based information system with a database of defense equipment as well as telegram communication facilities, a system that visualizes the flow of the Military Decision Making Process (MDMP) is set up to visualize the flow process of the MDMP.



FEATURES / FUNCTION

- Simulation of the document flow process in the Military Decision Making Process
- A defense equipment database is included in order to facilitate the process of filling out military decision making process data in the system
- It is equipped with a telegram/radiogram that is used for sending messages during the implementation of exercises
- The coordination between the teams within the unit should be trained.
