

**Omni Global  
Technologies**

**Your partner for  
seamless data  
integration.**

**ELEOS**

**In the age of data and rapid flow of information, analysts require optimized engines to process through all the information they receive. This is necessary to create everything from reports, analyses and analytical models.**

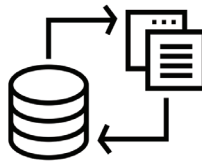

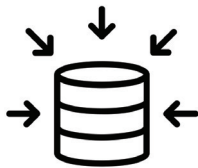

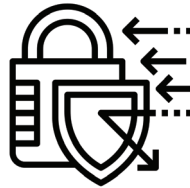

This is why we offer our ELEOS engine. Allowing for your analysts to be supported by a modern and interactive data catalyst engine. Helping them collect, process and visualize data that are scraped from multiple sources and datalakes.

ELEOS increases the rate in which your analysts process data, resulting in a constantly up to date database. The benefits this carries, is far reaching for any organization that works with data as their core model.

Building on proven open source/originally developed codes, ELEOS provides a comprehensive data integration solution. With an optimized Graphical User Interface and Low Code architecture, users will be provided with a platform that will ease and support their data work.

Users are also ensured a secure data access through encrypted authentication and authorization.

**ELEOS ONE STOP SOLUTION:  
DATA ACQUISITION,  
TRANSFORMATION,  
VISUALIZATION**
